THE COLLAB SALON is a monthly webinar when online presenters and members from around the world meet informally in real time. These “meetings on a cloud” always occur at 5pm (New York time) on the third Sunday of the month. With added breakout rooms, our meetings last between 1-1.5 hours. Events are recorded, and then become available on-demand afterwards to all Collab Salon members including anyone not able to join in real time.

Library of Past Salons
Members can join us in real time and review archived materials from our ever-growing Library of Past Salons featuring presentations from Australia, India, New Zealand, Russia, across the USA and Canada.
